This exploded view diagram illustrates the internal components of a refrigerator, organized into several functional groups:

- Compressor and Refrigerant System:** The central component is the compressor (41), which is connected to the condenser coils (42) and the evaporator (140) via refrigerant lines (45). The system includes various fittings (53, 54, 55, 59, 62, 63, 77, 93, 97) and a service valve (115).
- Electrical System:** The diagram shows the main power cord (116), a terminal block (73), and various electrical components including a thermostat (75), a defrost timer (86), and a defrost heater (99). The main power switch (100) is also shown.
- Door and Interior Components:** The door assembly (81) includes the door hinge (62), door latch (63), and door seal (75). The interior components include the evaporator (140) and the condenser coils (42).
- Other Components:** The diagram also shows the main power switch (100), a defrost timer (86), and a defrost heater (99).

This diagram shows an exploded perspective view of a pump assembly. The components are labeled as follows:

- 170**: A rectangular control box or valve assembly.
- 171**: A small circular component, possibly a cap or seal.
- 172**: A small circular component, possibly a cap or seal.
- 147**: A long, flexible hose or tube.
- 159**: A bracket or mounting plate.
- 153**: A flexible hose or tube.
- 164**: A flexible hose or tube.
- 157**: A flexible hose or tube.
- 158**: A flexible hose or tube.
- 148**: A small valve or connector.
- 147**: A flexible hose or tube (labeled again).
- 55**: A small valve or connector.
